

## CAJOSUITE LICENSES

CAJOSUITE FEATURES				DESCRIPTION
<b>Design Mode</b>	<b>Basic</b>	<b>Studio</b>	<b>StudioPlus</b>	
Laser marking (Cajo devices)	√	√	√	Markings made with Cajo laser system
Marking parameters	√	√	√	Setting up laser parameters (pencils)
System status monitoring	√	√	√	Indicators for laser marking system status (door open, laser source state etc.)
Marking head height control	√	√	√	Software controlled working distance
Geometric shapes	√	√	√	Basic shapes (rectangles, triangles, circles etc.)
Transformation tools	√	√	√	Rotation of object, mirroring etc.
Editing tools	√	√	√	Managing objects (array, offset, align, explode and auto connect)
Fonts	√	√	√	TrueType and SHX font support in markings
Hatch tools	√	√	√	Filling tools
Variable text	√	√	√	Variable content for each marking such as text, serial number and time stamp
Variable barcode	√	√	√	Variable barcode content for each marking (1D or 2D). Could be for instance serial number, time stamp or combination. Support for vast range of codes.
File import	√	√	√	Importing graphics from DWG- or DXF- files.
Multi-design support	√	√	√	Multiple designs can be open same time
Test Matrix Tool	-	√	√	Testmatrix tool for searching optimal laser parameters for the material
User permission control	-	√	√	Allows to limit user permissions in the software
Curved text	-	-	√	Text aligned with any line shape
Line weight	-	-	√	Adjusting the line width
Parameter storage tool	-	-	√	Parameter library structure for saving parameters
Tiling	-	-	√	Design which is too large to be marked at once can be split to smaller parts (tiles).
Line types	-	-	√	Different line types support such as dashed and custom lines.
File export	-	-	√	DXF file format exporting
Languages	en, fi, de	en, fi, de	en, fi, de	Supported languages. Kindly ask for other languages separately.
<b>Production Mode</b>	<b>Basic</b>	<b>Studio</b>	<b>StudioPlus</b>	
Laser marking (Cajo devices)	-	√	√	Markings made with Cajo marking system
Product management	-	√	√	Adding and managing products in product list
Device control	-	√	√	User interface to control the marking device actuators
System status monitoring	-	√	√	Indicators for laser marking system status (door open, laser source status etc.)
User permission control	-	√	√	Managing user permissions
TCP/IP remote control	-	√	√	Default Cajo TCP/IP interface
Simultaneous multi- controller support	-	-	√	Marking with multiple lasers simultaneously
Marking on the fly	-	-	√	Support for marking on the fly (MOTF)
Integrations, hourly rate	-	-	√	Database integrations/Device integrations
Workflow and user interface customization, hourly rate	-	-	√	User interface customization according to customer's needs
Languages	en, fi, de	en, fi, de	en, fi, de	Supported languages. Kindly ask for other languages separately.
